If you DO want to use TrackMy.com, then here is your HomeWork Assignment.

1. Find a Domain Name (website address)

Go to www.GoDaddy.com and see what is available. **DO NOT BUY IT!** Just tell us what you want and we'll get it for you and pay the renewal fees each year.

2. Look at Example Websites

Go to www.trackmy.com and click on “What is TrackMy.com”, and then click on “clients”. The bottom portion of this page lists many different websites. Look at these to get ideas for your own site. You will need to provide me with any special photos, graphics, logos, etc... that you may want on your site. Or you can view <http://sitehost.trackmy.com/vanitythemes/website/themeselect.aspx> to see our new designs.

3. See Hilarie for Training/Help.

REMEMBER

- **Anyone can build a website. You should look for two basic features: 1. Does this site provide my clients with the number one thing they want? - Accurate Property/Listing Information... 2. Does this site provide me with the number one thing I want? – Real Leads.**
- **Training can be hard to find and expensive. Take advantage of the free training and support we offer – at your office.**
- **It is up to you to make any technology work. PROMOTE yourself. Including your website. It is updated every hour directly from the MLS... Tell everyone!**
